

# A.M.S. Reseller Purchase Guide

## How do I buy A.M.S. and sell it to my clients ?

As **A.M.S.** has been designed for electronic delivery, we have in place a method of activation that allows the secure sale of our software, while still allowing for a reseller to make their profit on the sale. This also means that there is no need for any capital outlay until you make the sale to a client!

1. You purchase the appropriate license from Talcorp Australia Pty Ltd.

You can do this easily through our **Reseller Online Store** - click on Price List under Resellers in the lefthand menu of our website and enter your username and password we have previously supplied to you. Alternatively, you can contact us to make a direct deposit or electronic transfer to our account. Send an e-mail to **reseller@talcorp.com** with your request for an Invoice. We will e-mail or fax you an Invoice with our bank details on it. All software licenses must be paid for before we release the unlock key. Note the number of this document or the Receipt number that Paypal sent you.

2. Install the demonstration version of our software (obtained from our website under downloads) - **amsXXXXfull.exe** (where XXXX represents the current version number ) to your client's computer where it will be used. You cannot move the software after activation, as the unlock code will not function and you will remain in demonstration mode.

3. Start **A.M.S.** Server through the Start menu.

4. Click on the **ACTIVATE** button and complete the screen as follows :-

The screenshot shows the 'AMS Purchase / Activation' dialog box. It contains the following sections:

An arrow points to this section with the text: 'Select the correct license type.'
- User Details:** A section with a red asterisk and the text 'Required to be entered.' It contains five text boxes: 'Business or Organization Name', 'Contact Name', 'Address', 'Country', and 'Email Address'.
